CONTENTS OF VOLUME 22 (1983)—ONCOLOGY

Erik Lindgren retires as chief editor
E. BOIJSEN 1

Value of computed tomography for radiation therapy of tumors of the nasal cavity and paranasal sinuses
M. KONDO, M. HORIUCHI, Y. INUYAMA, T. DOKYUA, T. TSUTSUI, Y. IWATA, M. ENDO, T. HASHIMOTO, E. KUNIEDA and S. HASHIMOTO 3

Splenic irradiation in chronic myeloid leukemia
S. HUKKU, H. A. BABOO, S. VENKTARATNAM, M. S. VIDYASAGAR and N. L. PATEL 9

Irradiation, bleomycin and hyperbaric oxygen in the treatment of oral carcinoma
V. SHANTA, S. KRISHNAMURTHI and M. SHARMA 13

Lymph node metastases in the neck from an unknown primary—Report on 113 patients
Z.-Y. YANG, Y.-H. HU, J.-H. YAN, W.-M. CAI, D.–X. QIN, G.-Z. XU and X.-L. WU 17

Radiation therapy of recurrent nasopharyngeal carcinoma—Report on 219 patients
J.-H. YAN, Y.-H. HU and X.-Z. GU 23

Influence of adjuvant irradiation on shoulder joint function after mastectomy for breast carcinoma
N. RYTTOV, M. BLICHERT-TOFT, E. L. MADSEN and J. WEBER 29

Comparison between protracted and conventional dose rates of irradiation on the growth of the Bp8 mouse ascites sarcoma
S. CAO, S. SKOG and B. TRIBUKAIT 35

Effect of hematoporphyrin and red light in AH-130 solid tumors in rats
L. TOMIO, P. L. ZORAT, L. CORTI, F. CALZAVARA, E. REDDI and G. JORI 49

Response of developing mouse liver irradiated in utero and its modification by 2-mercaptopropionylglycine
B. P. PAREEK, G. MEHTA, H. C. BHARTIYA and P. K. DEV 55

Depressed in vitro lymphoproliferation after radiation therapy—Influence of adherent cells, indomethacin and autologous serum
M. ONSRUD 61

Effect of 50 kV irradiation on enzyme activities of growing rat bone—A histopathologic and enzyme histochemical investigation
H. ENGSTRÖM, B. C. MAGNUSSON and I. TURESSON 65

Effect of ionizing radiation and low temperature on L5178Y-R and L5178Y-S cells—II—Cell survival and DNA strand breaks after roentgen or gamma irradiation
K. J. JOHANSON, D. WLODEK and I. SZUMIEL . . 71

Relation between kerma and absorbed dose in photon beams
B. NILSSON and A. BRAHME 77

Intercomparison of Nordic exposure secondary standards for soft roentgen rays
H. BJERKE, K. ENNOW, H. JÄRVINEN, L. LINDBORG and G. SAMUELSON 87

Lung dose in electron beam therapy of chest wall
S. C. PRASAD, J. M. BEDWINEK and R. L. GERBER 91

Megavolt electron irradiation in the treatment of recurrent carcinoma of the breast on the chest wall
T. C. M. LO, F. A. SALZMAN, K. A. WRIGHT and G. E. COSTEY 97

Conservative management of breast carcinoma—The Créteil experience
B. PIERQUIN, Y. OTMEZGUINE and P. A. LOBO . 101

Inconsistencies in breast carcinoma registration—An investigation of 855 cases reported to the Swedish Cancer Registry
L. E. RUTQVIST and A. WALLGREN 109

Results of radiation therapy in oral squamous cell carcinoma
J. SKOŁYSZEWSKI and M. REINFUSS 113

Radiation treatment of carcinoma of the oropharynx —Report on 201 patients
Z.-X. ZHANG, Y.-H. HU, G.-Z. XU and X.-Z. GU 119

Histiocytosis X—VII—Prognostic significance of skull lesions
N. BARTHOLDY and P. THOMMESEN 125

Effect of local irradiation on longitudinal bone growth in the rat—A tetracycline labelling investigation
H. ENGSTRÖM, J. O. JANSSON and C. ENGSTRÖM 129

Radiation therapy for spinal epidural metastases with complete block
T. TOMITA, J. H. GALICICH and N. SUNDARESAN 135

Spontaneous cytoxicity of blood lymphocytes following local radiation therapy for carcinoma of the urinary bladder
H. BLOMGREN, F. EDSMYR, P.-L. ESPOSTI and I. NÄSLUND 145

Scanning and transmission electron microscopy following irradiation of Ehrlich ascites tumour cells —Relationship to cell cycle
S. SKOG, V. P. COLLINS, B. IVARSSON and B. TRIBUKAIT 151

Early effects of gamma radiation on the developing rat cerebellum—Induction of cell pyknosis
H. CERDA 163

Total body potassium determination using a whole-body counter
Y. NAVERSTEN and V. LENGER 167

Intravesical administration of misonidazole in bladder carcinoma
M. A. GHONEIM, A. A. SHAABAN, M. M. EL-MERZABANI, H. K. AWAAD and S. EL GAMMAL . 177

Preoperative scintigraphy with correlation to cytology and histiopathology in carcinoma of the thyroid
J. TENNVALL, E. CEDERQUIST, T. MÖLLER, Y. NAVERSTEN and M. ÅKERMAN 183

Relation between extension of non-Hodgkin's lymphoma and lymphographic findings
S. MATSUBARA, S. SUZUKI, J. HORIUCHI, H. SHIBUYA, K. NAKAMOTO and Y. OKADA 193
Behaviour of the proliferative compartment of the small intestine at different times of the day
A. BECCIOLINI, M. BALZI, D. CREMONINI, S. CINOTTI and D. FABBRICA 201
Tumor markes in bronchogenic carcinoma—An evaluation of carcinoembryonic antigen, tissue polypeptide antigen, placental alkaline phosphatase and pseudouridine
T. RASMUSON, G. R. BJÖRK, L. DAMBER, S. E. HOLM, L. JACOBSSON, A. JEPPSSON, T. STIGBRAND and G. WESTMAN 209
Non-uniformity induced artifacts in single-photon emission computed tomography
B. AXELSSON, A. ISRAELSSON and S. LARSSON . 215
Variation in cell surface morphology of two ^{90}Sr-induced osteosarcomas serially transplanted in CBA mice
H. BERGMAN and G. BRUNIUS 225
Effects of low doses of gamma radiation on DNA synthesis in the developing rat brain
H. CERDA 233
Repair in irradiated ascites tumour cells growing in vivo. An investigation of split doses related to cell cycle
S. CAO, S. SKOG and B. TRIBUKAIT 241
Functional changes in the vascularity of the irradiated rat femur—Implications for late effects
M. A. PITKÄNEN and J. W. HOPEWELL 253
Invasive squamous cell carcinoma of the uterine cervix—VII—Influence of vehicle osmolarity on biopsy quality
H. WILLÉN, R. WILLÉN and U. STENDAHL . . . 257
High dose rate afterloading treatment in carcinoma of the uterine cervix using an individual planning and reconstruction system
A. HIMMELMANN and I. RAGNHULT 263
Radiation therapy of anal carcinoma
B. GLIMELIUS, S. GRAFFMAN, L. PÅHLMAN and E. WILANDER 273
Cumulative radiation damage and cumulative radiation effect
T. VÄYRYNEN 281
Influence of age on outcome in breast carcinoma
L. E. RUTQVIST and A. WALLGREN 289
Histiocytosis X—VIII—Histiocytosis X simulating tuberculosis
P. THOMMESEN, N. BARTHOLDY and E. BÜNGER 295
Late changes following single dose roentgen irradiation of rat small intestine
M. HAUER JENSEN, T. SAUER, F. DEVIK and K. NYGAARD 299
S-phase cell distribution in the small intestine irradiated at different times of the day—I—Acute irradiation injury
A. BECCIOLINI, M. BALZI, D. CREMONINI and D. FABBRICA 305
Radiation sensitivity of human histiocytic lymphomas in vitro
L. JOHANSSON, J. CARLSSON and K. NILSSON . . 315
Operating characteristics of the Dynaray 18 linear accelerator
N. M. PROCTER 321
Calculation of dose distributions for iridium-192 implants
A. D. WELSH, A. DIXON-BROWN and J. B. H. STEDEFORD 331
S-phase cell distribution in the small intestine irradiated at different times of the day—II—Recovery phase
A. BECCIOLINI, M. BALZI, D. CREMONI and D. FABBRICA 337
Small-volume high-dose radiation therapy in carcinoma of the urinary bladder
J. SKOŁYSZEWSKI and M. WEISS 345
Histiocytosis X—IX—Fine needle aspiration biopsy for differentiation between histiocytosis X and spondylitis
P. THOMMESEN, N. BARTHOLDY and M. J. FRIIS ANDERSEN 349
Cholangiocarcinoma—A place for brachytherapy
T. PREMPREE, E. F. COX, W. SEWCHAND and C.-K. TANG 353
Intercomparison of iridium-192 wire used in interstitial radiation therapy
A. DUTREIX, A. DIXON-BROWN, R. LIQUORISH, B. PIERQUIN, D. CHASSAGE and C. H. PAINE 361
Energy metabolism and ATP turnover time during the cell cycle in roentgen irradiated Ehrlich ascites tumour cells
S. SKOG, B. TRIBUKAIT and G. SUNDIUS 369
Effects of dose fractionation on late roentgen radiation damage of rat small intestine
M. HAUER JENSEN, T. SAUER, F. DEVIK and K. NYGAARD 381
Ability of spleen cells from tumor bearing mice to transfer immunologic memory
B. PLAVŠIĆ, M. JURIN and B. UGARKOVIĆ 385
Effect of ^{137}Cs gamma radiation on the fibronectin content in basement membrane of mouse small intestine
L. E. BERGHEM and K.-J. JOHANSON 389
User requirements on CT-based computed dose planning systems in radiation therapy
H. DAHLIN, I.-L. LAMM, T. LANDBERG, S. LEVERNES and N. ULSØ 395
Factors affecting the pulmonary toxicity of bleomycin
L. M. PARVINEN, P. KILKKU, E. MÄKINEN, P. LIUKKO and M. GRÖNROOS 417
Increased mortality by septicemia, interstitial pneumonitis and pulmonary fibrosis among bone marrow transplant recipients receiving an increased mean dose rate of total irradiation
O. RINGDÉN, I. BÅRYD, B. JOHANSSON, G. GAHRTON, C. G. GROTH, G. LUNDGREN and B. LÖNNQVIST 423

Lymphocyte chromosome aberrations in patients undergoing radiation therapy for mammary carcinoma
A. Léonard, L. Fabry, M. Lemaire and G. B. Gerber 429
Electrocardiographic changes after radiation therapy for carcinoma of the breast—Incidence and functional significance
J. Lindahl, L.-E. Strender, L.-E. Larsson and B. Unsgaard 433
Modifications of S-phase cell distribution in the intestinal crypts after multiple daily fractionation
A. Becciolini, D. Cremonini, A. Fabbrica and M. Balzi 441
Primary non-Hodgkin's lymphoma ('reticulum cell sarcoma') of bone in adults
L. M. Parvinen, B. Jereb and L. Nisce 449
Mitogen induced blood lymphocyte DNA synthesis as a prognostic indicator in patients with non-Hodgkin's lymphomas in clinical remission
C. S-n. Lindemalm, M. Björkholm, G. Holm, B. Johansson and H. Mellstedt 455
Preoperative radiation therapy of high malignancy grade soft tissue sarcoma—A preliminary investigation
E. Månsson, J. Willems, T. Aparisi, P. Jakobsson, U. Nilssone and U. Ringborg 461
Effects on foetal ovaries after protracted, external gamma irradiation as compared with those from internal depositions
C. Rönnbäck 465
Ectopic intestinal glands after segmental small bowel irradiation in the cat
C. A. Rubio, B. Eriksson and L. Johnsson . . 473
Non-effectivity of roentgen irradiation in an in vivo rapidly growing murine lymphosarcoma
T. Veninga, B. Tribukait, W. Lemstra, I. Linder and G. Sundius 477
Inhibition of cell growth by irradiation in combination with hyperthermia or anticancer drugs
K. Nakajima, H. Hisazumi, O. Kumaki and O. Ueki 487
OER and RBE of high energy neutron beams for growth inhibition in vicia faba
J. Van Dam, G. Billiet, J. Zoetelief, J. J. Broerse and A. Wambersie 493
